

Strong

Anette Olzon

Who ever knew it'd come to this
Four walls a man made prison
Our sleepy world's awakening as a new threat has risen
To late to blame the other end
This game will have no victor
Protect yourself and save the rest
One breath take all your friends

Never give in - never give up
Don't ever stop - don't loose your faith
Deeper we fall, deeper we drop
Won't ever stop - won't loose our faith

Strong - need to be strong
Put up the fight and right what's wrong
We rise you fall
This is a call to arms for all

Take lives no matter who you are
Race, color, sex won't differ
Leave trace of death while passing by
End hope for all no future
No place to say this is the way
Twist fact and use your power
The day is now stop disarray
Light up the this darkest hour

Never give in - never give up
Don't ever stop don't loose your faith
Deeper we fall, deeper we drop
Won't ever stop - won't ever loose our faith

Strong - need to be strong
Put up the fight and right what's wrong
We rise you fall
This is a call to arms for all

Never give in - never give up
Don't ever stop don't loose your faith
Deeper we fall, deeper we drop
Won't ever stop - won't ever loose our faith

Strong - need to be strong
Put up the fight and right what's wrong
We rise you fall
This is a call to arms for all
Strong - need to be strong
Put up the fight and right what's wrong
We rise you fall
Strong
