Broken Bones

ANew Revolution

I should have seen this coming your generosity, it means nothin
g to me now
slapped the hand away, slapped the hand that feeds
how could I let this get so far,
Let this get so far

You live, you learn
another lesson I cant bear
you live, you try
another lesson learned in life
I think I'm losing all control
you live, and you learn
but all you're left with is broken bones

I want the fine line between love and hate,
I never said a single word
This is my time, I'm not the enemy
I throw my middle finger to the sky,
middle finger to the sky

You live, you learn
another lesson I cant bear
you live, you try
another lesson learned in life
I think I'm losing all control
you live, and you learn
but all you're left with is broken bones
broken bones

I feel like losing all control (3x)
I feel I lost it all

You live, you learn
another lesson I cant bear
you live, you try
another lesson learned in life
I think I'm losing all control
you live, and you learn
but all you're left with is broken bones
broken bones
