

# Take Me Over

A New Revolution

I'm waiting for the sun to rise  
but darkness is the only light  
I'm waiting for the dark to  
take me over, take me over

There's a part of me that is torn between  
The light and dark, the good and bad, the blessed and the fiend  
Will I lose control and let these feelings go  
and take the life that, keeps on knocking at my door  
so place your fears in me, for my eyes to see  
there's no turning back from becoming

I'm waiting for the sun to rise  
but darkness is the only light  
I'm waiting for the dark to  
take me over, take me over

I'm not soulless you don't own this  
a fallen angel still try to hang on to a dream  
I see the course in you, I feel the course in me  
It's burning in my brain, it's driving me crazy  
Close your eyes and see  
What will be, will be  
for eternity, it's just you and me

I'm waiting for the sun to rise  
but darkness is the only light  
I'm waiting for the dark to  
take me over, take me over

(take me over)  
Place your fears in me, for my eyes to see  
there's no turning back, from becoming  
Close your eyes and see  
What will be, will be  
for eternity, it's just you and me

I'm waiting for the sun to rise  
but darkness is the only light  
I'm waiting for the dark to  
take me over, take me over

I'm waiting for the sun to rise  
but darkness is the only light  
I'm waiting for the dark to  
take me over, take me over  
take me over, take me over
