

BODY LANGUAGE

Anfa Rose

Ain't a need for words here, love
Body language says it all
Need someone to hold you close
We should let our bodies talk
Ain't no need for words here, love
Body language says it all
Need someone to hold you close
We should let our bodies talk

Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you

Ain't no ordinary female
With you it's all about the detail
Thirsty bitches always reaching
Lately I ain't gotta reach out
But for you I always reach out
I always gotta text you first
Showing you a bit of thirst
Showing you I put in work
Touch your toes and look back at me
Fulfill all of your fantasies
Hold you close like you half of me
Passionately

Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you

Don't get it fucked up
Don't get it bent
Don't get it twisted again
I've had my fair share
I got it in
But I stand before you, a different man

Help me paint this masterpiece
No limit, like Master P
Hold you close when you in need
Fuck you till you fall asleep

Ain't a need for words here, love
Body language says it all
Need someone to hold you close
We should let our bodies talk
Ain't no need for words here, love
Body language says it all
Need someone to hold you close
We should let our bodies talk

Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you close
Ooh, I hold you
