

I can't really find my words right now, I'm kinda tripping
Weed and money makes it mega hard to find my ceilings
Told me wanna meet me somewhere somewhere in the middle
And fuck me 'till I can't remember why I started tripping

I could be myself around you
Ooh, I fucking love it
I could be, I could be myself around you
Ooh, that's how much I trust you
I could be myself around you
Ooh, I fucking love it
I could be, I could be myself around you
Ooh, that's how much I trust you

We mixing drinks, we mixing vibes
I let you in, let you inside
Told you exactly what it's like
My tribulations and my trials
And how you wait 'till the sun is up
Ain't overcome me but you really tried
I'm way too bummy to be certified
Step up your moves and step up your whole life

I can't really find my words right now, I'm kinda tripping
Weed and money makes it mega hard to find my ceilings
Told me wanna meet me somewhere somewhere in the middle
And fuck me 'till I can't remember why I started tripping

I could be myself around you
Ooh, I fucking love it
I could be, I could be myself around you
Ooh, that's how much I trust you
I could be myself around you
Ooh, I fucking love it
I could be, I could be myself around you
Ooh, that's how much I trust you
