

## Red Zone (Wildin')

Anfa Rose

Phones sitting in the red zone, ohh  
Yeah I'm on about 3 percent  
So you hit me on your way home  
Cause I don't wanna sleep alone again  
Still waiting on your text though  
Say you're out with your friends and  
You know it's still outtin' these ends and  
I'm trying to relieve this tension  
Oh It's on tonight  
I'm a dog tryna bone tonight  
Tryna show you what I'm on tonight  
Lickey lickey you I bet I make you moan tonight  
It's outrageous  
How you not taken, it's outrageous, yeah  
It'd be a shame if, my phone died cause it's running outta juice like patience

I would call you 1-2-3-4-5 too many times  
But I don't wanna cross the line  
Though you been heavy on my mind  
You wildin'  
Take your time to reply, yeah  
Usually I'm not that guy, yeah  
But you got something that I like, yeah  
You got something that I like, yeah  
Just reply, yeah

Oh you wildin'  
Oh you wildin', no you wildin'  
Oh you wildin'  
Oh you wildin'  
Oh you wildin'  
Just reply

I ain't been here before  
Usually when I don't get what I want  
I duck off yeah I just get bored  
Especially now I'm that boy  
That backside got me looking forward to see you, yeah something else  
These rap guys nothing like me, told you I'm different, its time to prove myself  
Both working all week, see me on your way home one night though  
One night though  
One night though  
Were you Bad baby? No Michael  
Send a text to me, it's an invite  
Now I'm speed racing  
Down the M5  
Ain't even got a license  
I think it's expired  
Locked up in the studio, I forgot  
Gotta move lowkey through these streets  
You know I'm always tryna keep the peace  
I just wish you'd give me warning but shit, if I was you I'd do the same thing to me, yeah

I would call you 1-2-3-4-5 too many times

But I don't wanna cross the line  
Though you been heavy on my mind, yeah  
You wildin'  
Take your time to reply, yeah  
Usually I'm not that guy, yeah  
But you got something that I like, yeah  
You got something that I like, yeah  
Just reply, yeah
