

Saviour

Anfa Rose

You know I'm not tryna be the one
And I know you feel the same way 'bout me
'Cause I stay on the run, yeah
Try to keep up with me

Sent me pictures while I'm working
You my favorite distraction
Said I'll be in town next week
So don't make other plans then
Got a lot on my plate
Just send the addy while I wait
'Bout to come and go like yesterday
Know you know I wish that I could stay

Oh I'm thinking 'bout you all day
(When I landed)
How it go, let me be your saviour
(Just go'n let me be your saviour)
I don't know a thing about your past
('Bout your past)
But I know about your features baby
(But I know 'bout your features baby)
Like you don't miss no class
(Miss no class)
Face like you don't need no makeup
(Face like you don't need no makeup)
I don't know a thing about your past
('Bout your past)
But I know about your features baby
(But I know 'bout your features baby)

Told me meet me in Canada
Said I do what I can
Schedule tight
But I'm loving your tan

Facetime me while I'm working
You my favorite distraction
Said I'll be in town next week
So don't make other plans then
Got a lot on my plate
Just send the addy while I wait
'Bout to come and go like yesterday
Know you know I wish that I could stay

Oh I'm thinking 'bout you all day
(When I landed)
How it go, let me be your saviour
(Just go'n let me be your saviour)
I don't know a thing about your past
('Bout your past)
But I know about your features baby
(But I know 'bout your features baby)
Like you don't miss no class
(Miss no class)
Face like you don't need no makeup
(Face like you don't need no makeup)

I don't know a thing about your past
('Bout your past)
But I know about your features baby
(But I know 'bout your features baby)
