

# Sin

Anfa Rose

Bathe me in your love  
Drown me in your touch  
Even when it's cold outside  
Even when I'm broken down  
Touch me with your breath  
See me eye to eye  
Even when it's cold outside  
Even when I'm old and tired

'Cause it's been a minute since I let someone in  
So if I don't know what to do with myself, well then

Sin for me  
You better show me if you're into me, oh  
'Cause I think Cupid's got it in for me  
I don't wanna end up just a memory  
Sin for me  
You better show me if you're into me, oh  
'Cause I think Cupid's got it in for me  
I don't wanna end up just a memory

'Cause love will comb my pain away  
'Cause I want you in rain or shine  
Couple things I wish never happened  
Issues that were playing inside  
Still I feel a way sometimes  
Said I need a break, I lied  
I just need a sign, give me a sign

'Cause it's been a minute since I let someone in  
Got my guard up but I wanna, I wanna see you again  
'Cause the one before you built me up, then burned the bridge  
So if I don't know what to do with myself, well then

Sin for me  
You better show me if you're into me, oh  
'Cause I think Cupid's got it in for me  
I don't wanna end up just a memory  
Sin for me  
You better show me if you're into me, oh  
'Cause I think Cupid's got it in for me  
I don't wanna end up just a memory  
I don't wanna end up just a memory
