

Stability

Anfa Rose

Where did we go wrong?
This shit's overdrawn
We're no longer growing
We could dissect it
We could go deeper, deeper, deeper
We could trifect it
We could try to perfect it

But is it really worth it, baby?
I'm not even hurting, baby
There's no point of this if we ain't both really certain, baby
You look uncertain, baby
My life is like a circus, baby
It's wild, wild, wild, wild
I need stability
Grown woman can't be acting like a child, child, child, child
I need stability

Yah, yah
You like to play a lot
Always come and go, can't tell if you gon' stay or not
You like to, you like to play a lot
Ignore me all day then tell me I'm the one that's playing up
I put numbers on the board for a living
Don't do it for the broads, man I do it for my children
And you should know me better by now
Just 'cause there's women around
Don't mean I feel them, you feel me

I lost hope in you when you lost hope in me
And yeah I want something new (tell me, tell me, tell me, tell me)
I lost hope in you when you lost hope in me
And yeah I want something new (tell me, tell me, tell me, tell me)

Where did we go wrong?
This shit's overdrawn
We're no longer growing
We could dissect it
We could go deeper, deeper, deeper
We could trifect it
We could try to perfect it

But is it really worth it, baby?

I need stability
I need stability
