

What Happened

Anfa Rose

Picking up pieces
I got you speechless
Trying to find reason
That night in Ibiza
You thought It'd be easy
To find a new me
You didn't believe me
Now you're mistreated

And I said it's not done
I kept to my word
I put you in front
Even before work
I said it's me
You don't need no work
And I'll make all the changes
And I'll make this shit work

And this is what happened
And this is what happened
(Darling)

And this is what happened
And this is what happened
(Darling)

This is what happened
This is what happened

This is what happened
This is what happened

You kept me runner up, this is no cover up
You sip mimosas and smoke all your cigarettes
That's how you cuddle up
Now you wanna cuddle up
'Bout to cop me a cheque
Bad hoe, give me bad-
Bad, bad ones drop it for the sack

Sessions looking like a mans world
Whoa
Who the hell let the bad, bad girl-
Tony told them get it popping
If they ain't popping tell em what that Uber do
Never settle for the wrong one
Sitting, thinking what we should've done
Third night I been on one
Third night I been on one

Picking up pieces
I got you speechless
Trying to find reason
That night in Ibiza
You thought It'd be easy
To find a new me
You didn't believe me

Now you're mistreated

And I said it's not done
I kept to my word
I put you in front
Even before work
I said it's me
You don't need no work
And I'll make all the changes
And I'll make this shit work

Like Rihanna say, you go work for it baby
I'm no longer putting in work for a baby
Work, work, work, work, work
Yeah, yeah we heard you the first-
You sing this song but you don't put in work
I see your friends trying to follow
All your friends trying to swallow
I'm just giving you the honest
I got the messages that followed
I just thought you should know, yeah
So you know who your friends is
Even though you don't deserve that
For the record, I did not hit it

Picking up pieces
I got you speechless
Trying to find reason
That night in Ibiza
You thought It'd be easy
To find a new me
You didn't believe me
Now you're mistreated

And I said it's not done
I kept to my word
