

Night Shift

Angel

You the reason I think I lost myself
Drive me crazy, shit, I put on my belt
Fuck it, you know that you bad, yeah
Fuck it, you know that you bad, yeah

Oh, baby, whine on me
Pour a lil drink, baby, grind on me
We used to wishing, now we fucking finally
Take it off, you gon' see another side to me

Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Making love on the floor
Yes, we were, me and her
Then I gotta go, I'm on the night shift
Even though you know I really like this

I tell everybody that you're my girl
Even though you're gonna ruin my world
Fuck it, you know that you bad, yeah
Everyone thinking I'm mad

Oh, baby, whine on me
Pour a lil drink, baby, grind with me
I'm used to wishing, now we fucking finally
Take it off, you gon' see another side to me

Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Making love on the floor
Yes, we were, me and her
Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Making love on the floor
Yes, we were, me and her
Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Then I gotta go, I'm on the night shift
Even though you know I really like this
Making love on the floor
Yes, we were, me and her
Then I gotta go, I'm on the night shift
Even though you know I really like this
