

# Long Night

Angel City

Came home from a private doctor  
Disconnected the telephone  
Eyes ablaze like the Northern Lights  
So strung out and there was no one home  
White line on the burning road  
Rolling high, collecting maps  
Shades her eyes, a classic disguise  
Rendezvous then she loves and laughs

She's got a  
Long night, long night  
Long night comin' up tonight  
(Yes it's a)  
Long night, long night  
Long night comin' up tonight

Cowboy moon over silver road  
Time comes due to make her crystallised  
If it's all I do, just lemme get through  
She promised herself this would be the last one  
"It's all in your head", the doctor said  
And she knew he was right  
But she was in need of a little more speed  
On a long night comin' up tonight

Long night, long night  
Long night comin' up tonight  
Long night, long night  
Long night comin' up tonight

(Solo)

White line on the burning road  
Rolling high, collecting maps  
Shades her eyes, a classic disguise  
Rendezvous then she loves and laughs  
Cowboy moon over silver road  
Time comes due to make her crystallised  
If it's all I do, just lemme get through  
She promised herself this would be the last one  
"It's all in your head", the doctor said  
And she knew he was right  
Ah, but she was in need of a little more speed  
On a long night comin' up tonight

She's got a  
Long night, long night  
Long night comin' up tonight  
(Yes it's a)  
Long night, long night  
Long night comin' up tonight

Long night, long night  
Long night comin' up tonight  
She's got a  
Long long night, long night  
Long night comin' up to-to-tonight, yeah

She was in need of a little more speed  
Got a long night comin' up tonight  
Doctor  
Oh, doctor  
Long night comin' up tonight  
Doctor  
Oh, doctor
