

## Atomic Roar

Angel Dust

See the light of oppression  
Talk to the witches because  
We've broken the sword of salvation  
Finery rain is falling  
No one knows how it will be  
In disaster and disease  
Atomic Roar  
Destroying the souls  
Destroying their lives  
March of the night  
Marches on  
Who can stop him riding?  
See the circles of his bows  
Death of steel and iron  
Blowing like a storm  
Enemies of living black  
Children of their souls  
Burning back you and me  
Who want to be free?  
Darkness comes before midnight  
Fire burning out of hell  
Have you seen the nation?  
Here comes atomic roar  
No one knows how it will be  
In disaster and disease  
Atomic Roar  
Destroying the souls  
Destroying their lives  
March of the night  
Marches on  
See the light of oppression  
Talk to the witches because  
We've broken the sword of salvation  
Finery rain is falling  
No one knows how it will be  
In disaster and disease  
Atomic Roar  
Destroying the souls  
Destroying their lives  
March of the night  
Marches on  
Who can stop him riding?  
See the circles of his bows  
Death of steel and iron  
Blowing like a storm  
Enemies of living black  
Children of their souls  
Burning back you and me  
Who want to be free?
