

## Practice

Angel Haze

Heart broken too often  
Love wasted no potion  
Poor baby don't make a sound  
Everybody wanna break you down  
I'm broken can't hide it  
Where the truth at can't find it  
They tell me all these lies  
No truth in all these lies  
Momma says don't give your world to no man  
But truth beef love till you got that ring on your hand  
Nobody knows nobody knows that  
Everybody feels what don't nobody show so

Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Live it up, live it up  
Take them all down  
Break a couple hearts  
Leave a couple round  
Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Break a couple hearts  
Break a couple hearts but don't fall in love no...

Still broken fast forward  
Feel the pain now ignore it  
I'm running but what towards  
I don't know but I'm going  
Can't feel shit that's boring  
That's real shit and you know it  
I then felt more than a little bit  
But I rather be a heart breaker than a little bitch  
Momma says don't give your world to no man  
But truth beef love till you got that ring on your hand  
Nobody knows nobody knows that  
Everybody feels what don't nobody show so

Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Live it up, live it up  
Take them all down  
Break a couple hearts  
Leave a couple round  
Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Break a couple hearts  
Break a couple hearts but don't fall in love no...

I live by the words of a wise man

He said don't go falling in love so as much as I can  
I steer clear of all of that stuff I fear that  
I am a little less emotional  
Took a couple fucking pills I think that I overdosed  
Gotta dark side shit you can call it comatose  
Everybody quick to talk about some shit that they don't know  
Fuck what you heard, like I'm fucking what you heard  
Like the word's to my clit, and I'm fucking every word  
Fucking every verb do something for me now  
I play dirty like shoes under money ground  
I'm too smart where the dudes try to dumb me down  
But they get played like blues in the fucking south  
I get you open and choose when to shut you out  
Walk up in it like guess who's in the fucking house  
Damn I own it I own it condone it  
Heart breaker heart taker content with my wrong and  
I'm scared that I may never make it back  
They say they love me I don't know what to say to that  
I mean I'm trying I just don't know what to make of that  
I got good intentions I just forgot where I placed them at

Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Live it up, live it up  
Take them all down  
Break a couple hearts  
Leave a couple round  
Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Break a couple hearts  
Break a couple hearts but don't fall in love no...

Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Live it up, live it up  
Take them all down  
Break a couple hearts  
Leave a couple round  
Live it up, live it up  
Take them all down  
Live it up, live it up  
Take it all now  
Break a couple hearts  
Break a couple hearts but don't fall in love no...

Love is a choice  
And the chance that I can take  
Is everything I ever loved  
Is one big mistake  
I never hurt again  
Never feel a brush  
Until the next  
I'm on the move, ah
