

## Big Time

Angel Olsen

Good morning kisses, giving you all mine  
Pull back the curtains, show me the sunshine  
Needing this coffee, needing some nature  
Need it right now, it can't wait until later

We're always busy, baby, not this time  
Lay in the tall grass talkin' with your eyes  
Talkin' with your eyes before we knew we were  
Thinkin' the same things, I'm a believer

And I'm losin', I'm losin', I've left it behind  
Guess I had to be losin' to get here on time  
And I'm living, I'm loving, I've loved long before  
And I'm loving you big time, I'm loving you more

Take to the lake, playing Lady In Red  
Hanging onto every word that you said  
Staying up all night, out by the fire  
Singing your songs now, you know I'm a crier

And I'm losin', I'm losin', I've left it behind  
Guess I had to be losin' to get here on time  
And I'm living, I'm loving, I've loved long before  
And I'm loving you big time, I'm loving you more

And I'm losin', I'm losin', I've left it behind  
Guess I had to be losin' to get here on time  
And I'm living, I'm loving, I've loved long before  
And I'm loving you big time, I'm loving you more  
And I'm loving you big time  
And I'm loving you big time  
And I'm loving you big time  
I'm loving you big time
