

## Can't Wait Until Tomorrow

Angel Olsen

I don't mind if I am completely lost when I'm with you  
I am always somewhat found in the things that we do together  
I hope I can be somebody who shows you your heart  
The way that it weighs upon my own  
If only we could understand each other, I'd happily die  
Oh, I don't care if I spend my whole life away  
I'm gonna try to give to you all of the love that I've been shown before  
Can't wait until tomorrow so that I can know you more  
So that I can know you more  
So that I can know you more  
With all my life, my might  
Turn all my dark into light  
Take all of the hate in my mind and put it aside  
Put it aside
