

## Angel of Light

## Angel Witch

I am here from your own mind  
Engineered you from start of time  
Made manifest from your belief  
The experiment fo time must cease

You have taken too much with greed through time  
Misunderstanding the harmony of life  
You are Gaia's plague  
In the human plague  
Now is time for you to die

My name: Your pain  
I only exist from your shame

Your abusive nature is too much  
You destroy everything you touch  
The Judgement here I'll let you know  
All the creatures stay, bu t you all must go

You have taken too much with greed through time  
Misunderstanding the harmony of life  
You are Gaia's plague  
In the human plague  
Now is time for you to die

My name: Your pain  
I only exist from your shame

So now I switch off your existence  
It won't even show

You were never known

My name: Your pain  
I only exist from your shame
