

I'm tryna make you feel yesterday
When you're gonna let me? I need to know right now
'Cause now I feel like the enemy
You striving me up to see and I can't be without you

You say I don't get it, so what am I doing here?
And if I didn't love you then I'd be elsewhere
You say I don't care, this pain I can't feel
Loving you is all I wanna do my baby

What's it gonna be? Tell me where we stand
All I wanna be is your man
What's it gonna take for me to unbreak your heart?
I never wanna see you go oh
Oh no
Go, oh no
Oh no oh

I think this situation is killing me
But I'd be everything you need, where are you now?
Baby I'm crying your tears tonight
Telling your friends you've been thinking
Maybe you could live without love

You say I don't get it, so what am I doing here?
And if I didn't love you then I'd be elsewhere
You say I don't care, this pain I can't feel
Loving you is all I wanna do my baby

What's it gonna be? Tell me where we stand
All I wanna be is your man
What's it gonna take for me to unbreak your heart?
I never wanna see you go oh
Oh no
Go, oh no
Oh no oh

What's it gonna be? Tell me where we stand
All I wanna be is your man
What's it gonna take for me to unbreak your heart?
I never wanna see you go oh
Oh no
Go, oh no
Oh no oh

Tell me what to do to make you stay beside me
If it's how we do, baby I'd fall apart
You have all my life, I will stick around
Promise I won't keep you down

What's it gonna be? Tell me where we stand
All I wanna be is your man
What's it gonna take for me to unbreak your heart?
I never wanna see you go oh
Oh no
Go, oh no
Oh no oh
