

Impossible To Kill

Angel

One is all it took to empty out the gun
Oh girl but you
You kept surviving
Killed you more than once

Now you know the war is so hard to live through
I'm running scared but you're just standing still
Like you're impossible to kill

We keep on dying, you keep rising and we just don't know the deal
Your love's impossible to kill
I keep on hiding, you keep fighting and I just don't close the deal
You were impossible to kill.

I'm gonna take my roses off your grave
'Cause next to you
My past mistakes about to detonate
It's just not safe

When you know the war is so hard to live through
I'm running scared but you're just standing still
Like you're impossible to kill

We keep on dying, you keep rising and we just don't know the deal
Your love's impossible to kill
I keep on hiding, you keep fighting and I just don't close the deal
You were impossible to kill

We keep on dying, you keep rising and we just don't know the deal
Just don't, just
We keep on dying, you keep rising and we just don't know the deal
Hey girl

We keep on dying, you keep rising and we just don't know the deal
Your love's impossible to kill
I keep on hiding, you keep fighting and I just don't close the deal
You were impossible to kill

One is all it took to empty out the gun
