

## More Fire

Angel

Girls all done up, me wanna  
Here to start something, no drama  
We can act a fool, no drama  
But I'mma lose my head, oh mama  
Stunner, karma  
Let me whisper in your ear, mwah mwah  
Do the things I say, no stunter  
I'mma be your man, oh proper

More fire, more fire  
I can tell the heat is taking over here  
Aye, moving closer now  
We can get the party started over here

Let go, no control  
We're tryin to lose our head  
So when we all say go, keep sayin no  
Do what we want instead  
They don't want that, they don't want that  
Jump around here, jump like a car jack  
They don't want that, they don't want that  
Take a picture for the moment, make it click clack

We don't need a penny just to get sweaty  
Tryin to live it up like rockstars  
Drinkin Henny straight, no rockstar  
Tryna lose my head, oh mama  
Think I've got a headache, need a medic  
'Cause I can feel my heart beat faster  
But I don't wanna leave my corner  
But I'mma be your man, oh proper

More fire, more fire  
I can tell the heat is taking over here  
Aye, moving closer now  
We can get the party started over here

Let go, no control  
We're tryin to lose our head  
So when we all say go, keep sayin no  
Do what we want instead  
They don't want that, they don't want that  
Jump around here, jump like a car jack  
They don't want that, they don't want that  
Take a picture for the moment, make it click clack

My ears are ringin  
Bout to reach that and my friends aren't inside  
But she's winkin  
Power in her legs can't bring my phone to life  
But she knows how to rule the world  
She knows how to rule the world, the world  
She knows how to rule the world, the world  
She knows how to rule rule rule

The waves of the bassline  
10 hits and our feet start shuffling

Before you know it there's a chain line  
Feel here and you can't get get get  
Higher, how you feel it?  
Gonna get Higher, how you feel it?  
Gonna get Higher, how you feel it?  
Gonna get Higher, how you feel it?  
Take it away

More fire, more fire  
Take it away  
More fire, more fire
