

White Lightning

Angel

Diamond rings all dressed up in black
Ridin' down the strip in a Cadillac.
She'll cruise all nite, but keeps herself intact.
She'll swallow awhile and then break your back

White Lightning, said give me some.
White Lightning, yeah I'm on the run.
White Lightning
It's frightening.
White Lightning.

She's got eyes that can tantalize,
She tell you all those lies and teach you to despise.
Write her number on your wall,
She'll keep you motor going when your car is stalled.

White Lightning, said give me some.
White Lightning, yeah I'm on the run.
White Lightning.
It's frightening.
White Lightning.

Uptown, Downtown, she's made her score,
With the way she moves you're gonna ask for more.
Men come from miles knockin' down her door,
For some it's just a disease but others call it a cure.

White Lightning, said give me some.
White Lightning, yeah I'm on the run.
White Lightning.
It's frightening.
White Lightning.
