

Tropical Love

Angela Bofill

Look into my heart
It's been bound to yours from the start
Look into my eyes
Love's image wears no disguise

And you
You're like the song
That blows through the trees
Native dancer flowing to me
Summer rain for flowers to grow
I need you so

Treat me, baby
To your tropical of love
Give it to me baby
Your tropical love

Treat me, baby
To your tropical love
Give it to me, baby
Your tropical love

Ripe from the vines
You could pick my love anytime
Orchid in bloom
Fragrance of love drifting through

And you burn like the sun
Reflecting a dream
Crystal blue and calm as the sea
Evening rain
So cool and so slow
I need you so

Treat me, baby
To your tropical of love
Give it to me baby
Your tropical love
Treat me, baby

Treat me baby
To your tropical love

Ooh, la, la, la, la
La, la, la
La la
La la

When you burn like the sun
Reflecting a dream
Crystal blue and calm as the sea
Evening rain
So cool and so slow
And I need you so

Treat me, baby
To your tropical of love

Give it to me baby
Your tropical love

Give it to me, baby
Your tropical love

Your tropical love
Tropical love
Tropical love
Tropical love
