

# Sucker

Angela McCluskey

New town and a new home  
To save your skin  
This is where your new life should begin  
Still after weeks  
You toss and you turn in your sleep

And you know that whatever you do  
Someone keeps looking for you  
New life and a new view  
To save your soul  
This is where you dig your hole

And you know that whatever you do  
Looking for you

No one believes that it's true  
What that fucker can do  
Aw you know what that sucker can do  
Yeah you know what that mother can do  
Yeah you know what that fucker can do

You know what that fucker can do  
Aw you know what that sucker can do  
Aw you know what that mother can do  
Yes you know what that fucker can do
