

I'll Never Be the Same

Angela Winbush

I'll never be the same again

I love you more
Than you could ever know
Words don't come close to saying
What's down inside that makes me glow
No other touch feels like yours
You're my only cure, baby
No other love means as much to me
This I can say for, well

Every night that I think of the
Very first time that we made love
I know that

I will never be the same again
I will never be the same again

You've changed my ways
My thoughts, my attitude
Love was a game that I played
Before I met you, boy
And I'd fight to keep your heart, baby
With me, at any cost, yea
I realize that before you
My whole world was lost

Everyday that I wake up
I pray that we never break up
Cause I know that

I will never be the same again
I will never be the same again

You've got the power to move me (move)
Every hour I need you to soothe me (soothe)
You've change me (change)
Came into my life and rearranged me (rearranged me)

I will never be the same again
I will never be the same again
I will never be the same again
I will never be the same again
