Never Return to Hell

Angelic Upstarts

Do you really want a war?
What are you fighting for?
Destruction may be the end, that I couldn't face.
Look someone in the eye, kill to survive.
Never enough to know the hate that went before.

Never return to hell.
Never return to hell.
The place that I know so well.
Never return to hell.

Hey boys, quite enough to fulfill the final blow.
One day all your games will come to an end.
You know it's not just me that will last for all.
When will the fighting come to an end?

Never return to hell.
Never return to hell.
The place that I know so well.
Never return to hell.
Never return to hell.
Never return to hell.
The place that I know so well.
Never return to hell .
Never return to hell.
Never return to hell.
The place that I know so well.
Never return to hell.
