

Out Of Control

Angelic Upstarts

He's out of control and he's gonna break away
"He's out of control" that's what his teachers say
The classrooms, the lessons are all too much for him
Your preaching, your teaching don't mean a thing
He wants out, there's no doubt about it
Stays in, with a bottle of gin
Your preaching, your teaching don't mean a thing to him

He's out of control he's gonna break away
Out of control it's what the teachers say
Out of control he's gonna have his way
Out of control they want him put away

Looking for somewhere to go
Needs no help, it's a one man show
Wants something new to do
Sick of running with the usual crew
Gotta do it all alone
Doesn't care if it breaks his home
Cos all their rules are made to be broken

Out of control he's gonna break away
"Out of control" it's what the teachers say
Out of control he's gonna have his way
Out of control he want him put away

Out of control he's gonna make his way
Out of control that's what they say
Out of control he's over the top
Out of control can't make him stop

They've got no cure for a kid like him
They run out of answers isn't it a sin
He'll never stop his fooling around
He'll laugh in their face and see them frown

Out of control, he's gonna break away
"He's out of control" it's what the teachers say
The classrooms, the lessons are all too much for him
Your preaching, your teaching don't mean a thing

He wants out, there's no doubt about it
Stays in with a bottle of gin
Your preaching, your teaching don't mean a thing to him

Out of control he's gonna break away
"Out of control" it's what the teachers say
Out of control he's gonna have his way
Out of control they want him put away

Out of control he's gonna make his way
Out of control that's what they say
Out of control he's over the top
Out of control can't make him stop

He's out of control, out of control
He's out of control.
