

# Naked Blade

Angelo De Augustine

I see the light all around  
And I don't know what's mine  
Soliloquize for a sign  
One to take my own life

I cannot explain it  
To you or anyone  
Like a dog who's been suffering  
You need to put me down  
I dare you to put me down

Rest on the wings of a star  
Summateer redefined  
Ivory white dragon fire  
Is gonna wipe out my line

I cannot explain it  
To you or anyone  
In the tub with a naked blade  
Oh is that my blood?  
Oh god is that my blood?

Black mass on cavalcade  
I felt just like a  
Child with a broken leg  
Longing to play

I hear the wind all around  
Round the clouds in my mind  
I can't look down though I try  
Try to make up my mind

I cannot explain it  
To you or anyone  
Like a dog who's been suffering  
You need to put me down
