

Song Of The Siren

Angelo De Augustine

I'll lead the light in
But I don't know
Where your heart goes
Song of the siren
Played on the shore
Dropped on the floor

All my thoughts
Come back to you like they did from the start
Wise and new
Lived my whole life just to make out the tune

Over the mountain
Was a love I knew
Vocal and violent
Uncontrollable
Like the infernal

All my thoughts
Come back to you like they did from the start
Wise and new
Lived my whole life just to make out the tune

I've lived my whole life just make out the tune
I've lived my whole life just make out the tune
