

# Time

Angelo De Augustine

Time keeps on coming  
I've been all around  
I'll keep on running  
Till time catches on  
I've been on the run

Now you're back in your hideout  
Never gave it all for free  
Everyone was talking to ya, to ya

Time keeps on learning  
About you and me  
I'll keep on loving  
Someday she'll love me  
I'll love you for free

Now your heart has been broken  
And you're miles off away  
Now you can't find the right words to say

Once uphill you'll be fine  
But your love's lost down the line  
Hate to say I was wrong  
Came into this life on my own  
And I'll try, yes I'll try  
Hope for love, turn out the light  
And I gave my own life, my own life, my own life

He'll treat you unkindly  
If that's what you want  
But you'll stay inside me  
Inside of my heart  
Unbound at the start

Now your heart has been broken  
And you're miles off away  
Now you can't find the right words to say

Once uphill you'll be fine  
But your love's lost down the line  
Hate to say I was wrong  
Came into this life on my own  
And I'll try, yes I'll try  
Hope for love, turn out the light  
And I gave my own life, my own life, my own life
