Toil And Trouble

Angelo De Augustine

I'll believe in anything
If you take away all this pain
Oh god is this the end?
I've seen it before on CNN

All of the mind held an evil inside
I don't know where
Dark was the night
Toil and trouble
My only delights
I don't know where I went wrong

You will do anything
If I numb away all your pain
The poppy field and the Golden Gate
The dragon's fire
A fall from grace

All of the mind held an evil inside
I don't know where
Dark was the night
Toil and trouble
My only delights
I don't know where I went wrong
I don't know where I went wrong
