

## Like The Movies

Angelo Kelly

Can't believe it's been 25 years ago  
Since we met when we were kids  
And it seems like only yesterday  
That our hearts touched one another  
Summernights,  
Our talks under starry skies  
When i fell in love with my best friend  
Who would have thought  
That we'd become one  
When we held hands for the first time

Our love, is like the movies  
Still dancing barefoot in the rain  
Can't wait til we're grey and old  
Holding hands, sitting side by side  
On our hollywood swing.

Can't thank enough  
For the graces from up above  
What a gift, a love so strong  
Never thought that  
It'd become true  
The story that's been written  
Between us two

Our love, is like the movies  
Still dancing barefoot in the rain  
Can't wait til we're grey and old  
Holding hands, sitting side by side  
On our hollywood swing.

I'll carry your heart, in my heart,  
I'll carry your heart where ever i go  
I'll carry your heart  
Endless nights  
Still talk under starry skies  
And i'm still love with my best Friend

Our love, is like the movies  
Still dancing barefoot in the rain  
Can't wait til we're grey and old  
Holding hands, sitting side by side  
On our hollywood swing
