

# Since You're There

Angelo Kelly

You walked the talk  
Always did what you said you would  
You were a man of this words that's for sure

So full of life  
And what a strong personality  
The greatest father I could I have had

Our oldest one remembers you  
He still talks og you sometimes  
And he wasn't even two years old when you died

you always by my side  
You're always on my mind  
Much more no than when you were alive  
Heaven seems to be a little closer  
Ever since you there

I let you down  
Didn't really take care of you  
Although you were sick and old I'm sorry

I was young  
I though I had better things to do  
I'm not better than all the rest

Now I regreat it all  
Could have spent more time with you  
I know you've forgiven me but still you're gone

you always by my side  
You're always on my mind  
Much more no than when you were alive  
Heaven seems to be a little closer  
Ever since you there

Stay with me, pray for me, walk with me, talk to me, carry me home  
Stay with me, pray for me, walk with me, talk to me, carry me home  
Stay with me, pray for me, walk with me, talk to me, carry me home  
Suddenly heaven seems just a little closer  
Ever since you're there  
Ever since you're there

Stay with me, pray for me, walk with me, talk to me, carry me home  
Stay with me, pray for me, walk with me, talk to me, carry me home  
Stay with me, pray for me, walk with me, talk to me, carry me home  
Stay with me, pray for me, walk with me, talk to me, carry me home

you always by my side  
You're always on my mind  
Much more no than when you were alive  
Heaven seems to be a little closer  
Ever since you there
