

Two

Angelo Kelly

If you take me back,
Back to your place,
I'll try not to bother you, I promise,
'Cause it's cold in here,
And I wish it was hot,
The sink's broke, it's leaking from the faucet.

I'm fractured from the fall,
And I wanna go home,
I'm fractured from the fall,
And I wanna go home.

It takes two when it used to take one,
It takes two when it used to take one,
It takes two when it used to take one,
It takes two when it used to take only one.

Well, my money's no good when I'm up to no good,
No good ever comes from it, honest,
I got a really good heart,
I just can't catch a break,
If I could I'd treat you like you wanted me to, I promise.

I'm fractured from the fall,
And I wanna go home,
I'm fractured from the fall,
And I wanna go home.

It takes two when it used to take one,
It takes two when it used to take one,
It takes two when it used to take one,
(Takes two),
It takes two when it used to take only one.
