

A Fire in a Nameless Town

Angels & Airwaves

I think we started something
That we can't deny
A fire in a nameless town
I'm really not that special
And you are all I have
I'm scared to death you'll figure it out

And when the train arrives on time, I'll know
If you are like the wind or not, I'll know

Your eyes have written something
On the back of bedroom walls
The sheets are here to catch your fall

And if you leave this life behind I'll stall
Will you imagine you and I at all

Go, I don't mind
I'll wait here
If you search
For yourself, dear
Don't forget
Us this time
Please stay here
One more night

The smoke is in the distance
The sight a reverie
A fire in a nameless town
I called you at the moment
Your image came to me
The bleeding of a heart unbound

The memory of us won't disappear
I walked you home from school each day for years

Go, I don't mind
I'll wait here
If you search
For yourself, dear
Don't forget
Us this time
Please stay here
One more night

Go, I don't mind
I'll wait here
If you search
For yourself, dear
Don't forget
Us this time
Please stay here
One more

Go, I don't mind
I'll wait here
If you search
For yourself, dear

Don't forget
Us this time
Please stay here
One more night
