

# All That's Left Is Love

Angels & Airwaves

Do you ever not open those eyes  
To see again, your old life  
Do you ever look back to that night  
Right before, the world cried

We have never been here before  
To not love less, to love more  
And now after all that we've seen  
Yeah I'm sure, it's for me

What we'll be...

I wait for winter's pass, and we  
Tried to make it last, but it's  
Difficult at best  
When our hearts can never rest

At night it is the worst  
Always say we're passing first, then  
Delete the messages  
The ones that really hurt

We, send out a call  
Love, runs, from, a, crawl

The world is different now  
We feel more of us  
When the days are getting tough  
A little bit's enough  
When all that's left is love

Spring has come along, and the  
Leaves are off the lawn  
Wishing I could stop the fear  
As the summer nights come near

We're locked inside our beds, but we  
Laugh at what is said  
Remember how it all begins  
A little smile from your friends

I, gave, you, my, spark  
Hope, when, things, get, dark

The world is different now  
We feel more of us  
This place is such a mess  
But we always pass the test

When you feel like looking up  
When the days are getting tough  
We're gettin' us that drug  
A little bit's enough

When all that's left is love

Life's so unreal

Life's so unreal

The world is different now (Life's so unreal)  
We feel more of us  
This place is such a mess (Life's so unreal)  
But we always pass the test

When you feel like looking up (Life's so unreal)  
When the days are getting tough  
We're gettin' us that drug  
A little bit's enough

When all that's left is love
