

## Anomaly

## Angels & Airwaves

Hey you,  
what's with those eyes-  
What ya been thinkin'

Hey girl,  
Spreadin' your wings  
The world's awaitin' to let you in

That smile  
A mile away  
The colors collide

Hey you,  
Pick up the reigns  
And come through my window and don't be shy

I never wanted to say  
How much I liked you  
I never wanted to be  
One of your sad discoveries  
We'll see

Hey there,  
Since you been gone  
I've written about you

These words  
They're no Hemingway  
They don't have any value to any line

My girl  
You scared to go home  
A view of the city

Hey you  
I can never relax  
And Its never an option if you're not mine

I never wanted to live  
My life without you  
I never wanted to coast  
Always wanted to be an anomaly

I never wanted to say  
How much I loved you  
I never wanted to be  
One of your, sad discoveries

Tell me  
Don't let me down  
I sense this is my end  
I wont let you leave here  
Without these violins

One day  
I follow your eyes  
To the top of a mountain

My girl  
I think I'm in love  
It's the scariest place to be alive
