### Angels & Airwaves

My oh my, the coast is never that clear  
Hate them rocks and stones, quit throwing them here  
Shut that door, the locust is coming inside  
Get out them boots and walk off that miracle mile

I'm a smooth operator  
I'm a loose elevator

Watch me as I break the television  
Talk me off the ledge, I can't envision  
Take me to the hole to throw a wish in  
I am on my way, unstoppable  
Lock the doors and warn the federation  
Bright and bold, here comes the revolution  
My oh my, the king is on a mission  
I am on my way, unstoppable  
Pure at heart, a king infallible  
Great big fucking time  
So powerful, I

My oh my, a kiss inside of my ear  
A cool clean fist to punch out the holiday cheer  
Stop everyone, stop everyone coming inside  
Watch out, this is the first time I'm feeling alive

I'm a smooth operator  
I'm a loose elevator  
I'm a smooth operator  
I'm a loose elevator

Watch me as I break the television  
Talk me off the ledge, I can't envision  
Take me to the hole to throw a wish in  
I am on my way, unstoppable  
Lock the doors and warn the federation  
Bright and bold, here comes the revolution  
My oh my, the king is on a mission
