

## Baal Arise

Angelspit

Devil hands, workin' so busy  
Nitro ghost, in a feeding frenzy  
Bite their love from the face of God  
Now they thirst for more oil and blood

While maggots gorge  
On the rotting flesh of god  
...and we sing

I love you, now swallow these pills  
From hell's heart, banquet of bullets  
Shepherds lead thee where the wolves don't sleep  
The fallen King rules a flock of dead sheep

And when you die they swarm over your fortune  
Like the maggots that swarm over your corpse

It drives you into the dust  
Then Steps over your carcass to snag the next one

Baal arise  
God of the flies  
Hallelujah ruin  
Excelsior burning

I am Baal ze Baal
