Hypnotised

Angelzoom

Hypnotised I hear a dark voice I feel dazed I have no choice Days gone by I feel I`m weightless I have lost my mind And I still (start to)

Fly

Trust me now my angel You`re what I made - You can`t escape

Dreams pass by Regain consciousness Sensetive to pain But I still

Fly

Trust me now my angel You`re what I made - You can`t escape

Don`t lead me back I`m feeling high, let me still fly
