

Otium cum dignitate  
Otium cum dignitate  
Otium

Sun shines bright  
My heart is laughing  
I'm happy  
What I do is nothing

A light heart

Otium cum dignitate  
Otium cum dignitate  
Otium

A light heart

Worries have to be driven far away  
Only love can bright your day  
Waft yourself to regions of stars and light  
It's shimmer still beams clear and bright

With my childlike heart  
And trusting mind

I'm glad about and blithely  
What I find

A light heart

Worries have to be driven far away  
Only love can bright your day  
Waft yourself to regions of stars and light  
It's shimmer still beams clear and bright  
At night
