

Circus Circus

Angerfist

I got you stuck off the realness
They come round but they never come close to
I got you stuck off the realness

Every man for they self
I got you stuck off the realness
They come round but they never come close to
Every man for they self
You all alone in these streets, cousin
Every man for they self in this land, we be gunnin'
I got you stuck off the realness
They come around but they never come close to
The realness
I got you stuck off the realness
