ad I'm gonna pull the whole thing down
I'm gonna bring the whole f\*\*kin' diseased
Corrupt temple down on your head
Total f\*\*king war

I'm gonna pull the whole thing down (down [?x])

Total f\*\*king war

This is now

This very moment

But we are threatened by the now so we jump to the past or the future

What is the actual experience now possesses a lot of powerful things

It is so powerful that we can't face it
And maybe that's why we seek religion
Maybe that's why we march in the street
Maybe that's why we vote for the presidents
Maybe that's why we complain to society
Total f\*\*king war

So we jump to the past or the future

And maybe that's why we seek religion
Maybe that's why we march in the street
Maybe that's why we complain to society
