# Devil In My Mind

**Anggun**

I got your message on my answering machine
Your voice in my head brings the smile on my face
Before it's too late maybe I should remember
That hesitate to beat the chance to regret

'Cause I have all the time to take it slow and easy
Sure let the devil in my mind decide too fast
Once upon a time you got to make sure gotta tolerate
The devil in my mind to think you'll live from your past

They said it's a mistake that I'm afraid to keep it
They don't want heartaches to be an adolescence
But then my mind said right from wrong
But I'll just have to wait for love to come along

'Cause I have all the time to take it slow and easy
Don't let the devil in my mind decide too fast
Once upon a time, got to make sure gotta tolerate
The devil in my mind to think you'll live from your past

Though it is hard, I try to hold back
But I'm falling for you the feeling that I can't undo
I breathe and shake it, live each moment
Once upon a time
