

Dinosaur

Angie Stone

You gonna find what you're lookin' for
Keep on digging through the dirt girl
Just leave them bones where they at now
And wash your hands in the faucet you
Only gon' exhaust yourself
She was way before you met
He gon' say

What you bringin' up the past for
Bringin' up old shit, dinosaur

You gonna find what you're looking for
Keep doin' that research
And when it surface it's gonna hurt
And now you tryna figure out what's worse
Look at you mad again
But you can't be mad at him
He gon' say

What you bringin' up the past for
Bringin' up old shit, dinosaur

See that's what you get
You wanted a reason to flip out on him again
You just had to dust it off (had to dust it off)
You just had to bring it back (had to bring it back)
Couldn't leave it in the dirt
He wanted a reason and you just gave it to him
Congratulations

You wonder where do the good ones go
They're on the verge of extinction
But you got one sit-in right at home
Whenevers you can't reach him you
Thinkin' that he actin' snake
Shorty that was your mistake
He gon' say

What you bringin' up the past for
Bringin' up old shit, dinosaur

See that's what you get
You wanted a reason to flip out on him again
You just had to dust it off (had to dust it off)
You just had to bring it back (had to bring it back)
Couldn't leave it in the dirt
He wanted a reason and you just gave it to him
Congratulations

That's what you get
You wanted a reason to flip out on him again
You just had to dust it off (had to dust it off)
You just had to bring it back (had to bring it back)
Couldn't leave it in the dirt
He wanted a reason and you just gave it to him
Congratulations

Why you play a game you gonna lose
It's chess not checkers think through your moves
Why make accusations that you just can't prove
Whoa

See that's what you get
You wanted a reason to flip out on him again
You just had to dust it off (had to dust it off)
You just had to bring it back (had to bring it back)
Couldn't leave it in the dirt
He wanted a reason and you just gave it to him
Congratulations
