My People

My people! Yeah! My people! Yeah!

The foundation of the United States Rests on the sweat of my people Every enemy of the USA Has had to face my people on the front lines

People, my people are dyin' And we see it all the time Don't know where our future would be If he's not here, how do we stay strong?

Only we can save us from us Bring about change we will show our people love

R: My people, hold your head up My people, don't get fed up My people rise, my people fight My people do alright My people walk with pride and We're marchin' side by side and My people laugh, my people cry My people ride and die

People, my people, keep striving There's a greater master plan We need to know our history We were kings and queens of the greatest dynasty

Only we can save us from us Bring about change we will show our people love
