

# Same Number

Angie Stone

No ain't nothin' changed boy my number still the same  
No ain't nothin' changed boy my number still the same

I miss what we used to be  
What's up with you now  
You single, I'm single, take me out  
You don't have to be a stranger  
Nothin' different in case you wondered  
I know you still got my number

None of them dudes were you  
I was just passing by the time  
Just tryin' to keep you offa my mind  
You was actin' like you ain't want me so  
I had to show you the difference between  
A queen  
Ever get tired of the games  
My number's still the same

We can pick back up right back up  
Where we left off love (For love, love)  
I got a soft spot in my heart  
I'm a sucker for your love (For love, love)  
How long has it been  
And are you here to stay (Stay)  
Even if it's temporary  
You need to call me either way

I miss what we used to be  
What's up with you now  
You single, I'm single, take me out  
You don't have to be a stranger  
Nothin' different in case you wondered  
I know you still got my number

Every day since you left  
Low-key I still be holdin' my breath  
No butterfly feelings for nobody else  
But it wasn't for lack of tryin'  
Back where we started nothing's changed  
It's strange  
Ever get tired of the games  
My number's still the same

We can pick back up right back up  
Where we left off love (For love, love)  
I got a soft spot in my heart  
I'm a sucker for your love (For love, love)  
How long has it been  
And are you here to stay (Stay)  
Even if it's temporary  
You need to call me either way (Call me)

I miss what we used to be  
What's up with you now  
You single, I'm single, take me out  
You don't have to be a stranger

Nothin' different in case you wondered  
I know you still got my number

Let your finger guide you when you start to dial  
Hope that when you think of me it makes you smile  
And I really miss you you know it's been a while  
Don't you remember me, you're locked inside of my memory

I miss what we used to be  
What's up with you now  
You single, I'm single, take me out  
You don't have to be a stranger  
Nothin' different in case you wondered  
I know you still got my number

I miss what we used to be  
What's up with you now  
You single, I'm single, take me out  
You don't have to be a stranger  
Nothin' different in case you wondered  
I know you still got my number
