

Think It Over

Angie Stone

We got some talking to do
Cause I got a problem with you
I just can't taking no other excuse
Boy what's it gonna be, are you committed to me?
I don't want to let our love go downstream

Over and over, I give you my shoulder
But it's getting heavy (too much to carry)
And I can't do this no more
Over and over, my heart growing colder
And I just can't take this no more

So, you got to tell me the truth
Cause we've got too much to lose, I think we're worth it
So baby think it over
And you, have to get your walking shoes
Cause it's up to you to choose, if we worth it
So baby think it over

I'm not into sharing what's mine
Exclusively what is mine, so what's it gonna be baby?
Are you leaving or are you staying?
I can't let this shit brake me
Allow it to take me
Down a road that I don't wanna go.. oh no

Over and over, you losing your soldier
One ride or die, sister who try anything it takes to please you
Over and over, nobody is gonna hold you
Not like I do, and you know it's the truth, baby

So, you got to tell me the truth
Cause we've got too much to lose, I think we're worth it
So baby think it over
And you, have to get your walking shoes
Cause it's up to you to choose, if we worth it
So baby think it over

Think it over, yeah yeah
Think it over, oh yeah yeah yeah
Think it over, baby baby please
Think it over

So, you got to tell me the truth
Cause we've got too much to lose, I think we're worth it
So baby think it over
And you, have to get your walking shoes
Cause it's up to you to choose, if we worth it
So baby think it over
