

While We Still Can

Angie Stone

While we still can

Let's settle all our petty differences
Let this apply to every man
I'm hoping we pursue our happiness
While we still can
I'm open to accepting your preferences
Love who you love, hold tight their hand
I'm praying that we find salvation
While we still can

Hour come judgment shall be known by no man
Order your affairs your affairs while you can
He promised us said it's written in stone
We don't have to cross Jordan alone

You only get
One mind, one soul, one heart
You'd better be smart and understand
While you still can
You only get
One life, one world, one shot
You'd better be smart and understand
While you sill can

Here suffering a Godless government
A fool we placed upon the throne
In fear for soon the angel Gabriel
Comes to blow his mighty horn
And the water's so polluted you can see it boil
And the ocean goin' black from the spillin' crude oil
What becomes of the children gotta come up with a plan
While we still can

Hour come judgment shall be known by no man
Order your affairs your affairs while you can
He promised us said it's written in stone
We don't have to cross Jordan alone

You only get
One mind, one soul, one heart
You'd better be smart and understand
While you still can
You only get
One life, one world, one shot
You'd better be smart and understand
While you sill can

While the opportunity is still at hand
Let's watch the clock and not forget
The devil came to steal, kill, and destroy
And rob us of all our joy

You only get
One mind, one soul, one heart
You'd better be smart and understand
While you still can

You only get
One life, one world, one shot
You'd better be smart and understand
While you sill can
