

# Magic Mirror

Angra

If you come close I'll tell you a little secret  
The best ones you can learn from are your enemies  
When it comes to know and defeat your weakness  
You need to be the hunter and the prey

Remembering the days  
We would be lying on the grass out in the sun  
Felt good to be friend back then  
But now we've built a fence of differences

Now please present me what I've lost  
And I'll portray your failures  
So that we can be complete

It's like a Magic Mirror  
Colliding mind's reflection  
They are the sacred window  
Reveals the other side  
So be the Magic Mirror  
The other eye's Perception  
They are the sacred window  
Grant that light to shine

You and I know what's the best for both of us  
Even though our thoughts are not the same  
Living in worlds  
That might be slightly different  
Let us build a bridge, unite our ways!

Always remembering the days  
We would be lying on the grass out in the sun

So, every time you point your fingers  
You deny your own mistakes  
Now who's the one to blame?

I see the Magic Mirror  
Colliding mind's reflection  
They are the sacred window  
Reveals the other side  
So be the Magic Mirror  
The other eye's Perception  
They are the sacred window  
Grant that light to shine
