

## Millennium Sun

Angra

An eagle breaks the silence  
And overflies the field  
My eyes will try to follow  
Till it vanishes away  
Like candles in the darkness  
We fight against the wind  
Devotion to your idols  
Soon will overthrow the king  
Out of order  
Taming borders  
Tearing down the fences  
On and on and after all  
The century has gone  
Racism jumble  
Turbulence  
My eyes believe we have gone to the end  
Ordinary Earth  
Sailing through the space  
Population alienation  
Losing all affection  
Calling on to heaven's hope  
To watch for my protection  
Out of luck  
Potential stuck  
Remote controlled  
By the T.V. again  
Carries human souls  
Lead us the journey of our fate  
So come millennium sun  
Won't you show us the way  
Future's begun  
So words from my mouth come  
Whispering for your return  
Pictures a sunset on the lake  
Mirrors of crystal your portrait  
Walking on this field while I wait  
So come millennium sun  
Won't you show us the way  
Future's begun  
So words come from my mouth  
Whispering for your return  
Show us the future's began  
Burning millennium sun
